

PROJECT EXECUTION STEPS

Step 1: Start the Project

- Launch the Django development server by double-clicking the `run.bat` file. This will start the server and make the project accessible via a web browser at: <http://127.0.0.1:8000/>
- Press **Ctrl + Left Click** on the localhost address to open the application in your default browser.

Step 2: User Registration

- On the login page, click the "**New User**" option to be redirected to the registration form.
- Fill in your **Name**, **Email ID**, and **Password** in the form fields.
- Click the "**Register**" button to create your account.

Step 3: User Login

- After successfully registering, your credentials will be saved in the backend users table.
- Use your **registered Email ID and Password** to log in.
- Upon successful login, you will be redirected to the **User Welcome Page**.

Step 4: Admin Login

- On the login page, click the "**Manage Users**" option to go to the admin login interface.
- Enter your admin credentials (superuser login) to access the admin panel.

- After successful authentication, you will be able to:
 1. View the **registered users table**
 2. **Delete users** to cancel their registration
 3. **Log out** to return to the main login page

Step 5: Deepfake Application

Model Metrics:

- Click on the "**Model Metrics**" option to explore the system's model performance.
- This section provides insights into:
 1. A sample of the dataset used
 2. Fast Text Embeddings of the Data
 3. A A table showing F1-scores of various algorithms
 4. A bar graph comparing the accuracy of models
- Use the "**Home Page**" button to return to the dashboard.
- Click the "**Logout**" button to exit the session and return to the login screen.

Predict Deepfake:

- Click the "**Predict Deepfake**" button to access the tweet testing screen.
- Enter a tweet in the provided text box and click "**Submit**".
- The model will predict and display whether the tweet is **Normal** or **Bot Fake**.
- Click "**Logout**" to exit the application and return to the login page.
